BRIDGE GOES DOWN

Eighty-Four Workmen Meet Death Beneath the Waves.

MEN WERE CAUGHT IN TRAP

Section of New Bridge in Course of Construction Across the St. Lawrence River, Near Quebec, Goes Down.

Quebec, Aug. 31.—A section of the new bridge across the St. Lawrence river, five miles below the city, collapsed Thursday, carrying scores of workers and mechanics into the water. It is estimated that the loss of life is at least sixty, and many estimates exceed that number by twenty.

The bridge was about a mile and a half in length, and half of it, from the south shore to midstream, was crumpled up and thrown into the waters below.

Ninety men were at work on this section of the structure, and the whistle had just blown at 5:30 for the men to quit work for the day when they heard a grinding sound from the bridge midstream.

"The Bridge Is Falling!"

The men turned to see what had happened, and an instant later the cry went up, "The bridge is falling!" The men made a rush shoreward but the distance was too great for them to escape.

The fallen section of the bridge dragged others after it, the snapping girders and cables coming like the crash of cannon, and frightening the workmen as they sped forward. Only a few of them reached safety before the last piece of iron on the south shore was dragged into the river.

Steamer Lowers Boats.

The steamer Glenmont had just cleared the bridge when the first section fell. The water thrown up by the debris came clear over the bridge of the steamer. The captain at once lowered boats. The small boats plied back and forth over the sunken wreckage for half an hour, but there was no sign of life. The twisted iron and steel had its victims in a terrible death grasp. A few floating and broken strands of the bridge towards the north shore were the only signs that anything unusual had happened.

All the men drowned were employees of the Phoenixville Bridge company and sub-contractors of Quebec and Montreal.

The Quebec bridge was begun seven years ago, and it was to be finished in 1909. Subsidies had been granted by the federal and provincial governments and the city of Quebec, and the estimated cost of the work was $10,000,000.

Searching for Victims.

Quebec, Aug. 31.—With the first break of dawn half a dozen government and Quebec Bridge company tugs began a search of the St. Lawrence river for the victims of Thursday night's catastrophe.

The total deaths caused by the collapse of the great cantilever bridge numbers at least 75, and may reach 85.

Up to an early hour Friday morning less than twenty bodies had been recovered. The terrific drop of the great steel structure from 150 feet above the surface of the river crushed the bodies of many workmen in a frightful manner and it is feared that many of them will never be found.

Many of the dead and missing are Americans brought here by the Phoenix Bridge company of Phoenixville, Pa., which had the contract for the iron work on the bridge.

Both the local and the Dominion authorities have taken steps to investigate the cause of the disaster, and, if possible, fix the responsibility.

Some of the workmen expressed the belief that the anchor pier gave way under the tremendous strain of the overhanging steel work.

M. P. Davis, of Ottawa, the contractor who built the piers, made a hasty examination, however, and reported them to be in good condition. Although the steel superstructure had fallen upon them.

Engine Went into River.

A locomotive and several freight cars loaded with steel girders were moving out upon the bridge just before the structure collapsed. Engineer Jess, who was on the locomotive, went into the river with his engine, but was picked up 300 feet below the bridge. Fireman Davis perished.

ARREST MAY FOLLOW.

Investigation of Death of Beautiful Kentucky Girl.

Louisville, Ky., Aug. 31.—Miss Laura Schumate, a member of a prominent and highly respected family of Oklahoma Station, died under mysterious circumstances at the City Hospital and members of the family are conducting an investigation, with the aid of the police. An examination, it is said, revealed that Miss Schumate had been the victim of an operation prior to being brought to the hopital.

It is said that the brothers of Miss Schumate will ask for the arrest of a prominent young man now located in Birmingham, Ala. The young woman first came to Louisville five weeks ago, it is said, with a man who represented himself as her uncle.

On August 23 she was removed to the hospital, but made no statement to the authorities regarding her true condition.

Miss Schumate was a brunette of unusual beauty, and, while it is said she was little more than a child in years, the death report gave her age as twenty-one.

FIGHT ON BOND ISSUE.

Jackson Citizens May Be Plunged in Litigation with City Council.

Jackson, Ga., Aug. 31.—The citizens of Jackson are about to be plunged into litigation with the present city administration. A letter has been sent to the mayor and council in which they are asked ertain direct questions regarding water bonds, electric light bonds and city debt. This communication is being distributed on the streets for use of voters.

On all hands it is heard that unless the present city officials give an account of their actions and doings and a showing of the money passing through their hands a bill for discovery will be filed on the part of the citizens in the superior court of Butts county. The officials are J. B. Wall, mayor; J. H. Carmichael, S. O. Horn, C. R. Gresham and J. R. Carmichael, councilmen.

The election for an additional bond issue to raise $10,000 will occur Sept. 7 next. Things are at fever heat and criminal actions are talked of freely.

SINKING FOR TWO CENTURIES.

Hoary St. Paul's Cathedral Is Said To Be In Danger.

London, Aug. 31.—The committee of architects which was appointed to inquire into the condition of St. Paul's Cathedral has issued a report which declares that while the cathedral is in no immediate danger, elaborate precautions are necessary to preserve it from disaster.

The cathedral has been sinking for two centuries, and the expert committee recommends that the condition of the subsoil and the street water level be periodically recorded, as there lie the chief possibilities of future danger. It is added that attention should be given to all building operations in the neighborhood, or mischief of a serious nature may arise. The committee recommends that the large amount of structural work required in repairing the fabric be proceeded with at once.

Parents Selling Their Children.

London, Aug. 31.—A Rome dispatch brings a story of an attempt to sell children in the market at Avellino. A peasant and his wife brought two of their children, twins, four months old, and in open market offered to sell them for $40 each. The babies were plump and healthy and were bought by a man who offered the price required. He was taking the children away when the police stepped in and arrested both buyers and sellers.

GREAT ACTOR IS DEAD

Final Curtain Rung Down For Richard Mansfield.

FOREMOST AMERICAN ACTOR

Death Was Due to a Complication of Troubles—During Last Moments He Was In Condition of Coma, and Did Not Recognize His Family.

New London, Conn., Aug. 30.—Richard Mansfield, the best known actor on the American stage, passed away here this morning at his summer residence, Seven Oaks, Ocean avenue. Death was directly due to disease of the liver, aggravated by complications.

Dr. A. H. Allen, a local physician, who has been in charge since Mr. Mansfield's arrival here from Saranac Lake, N. Y., says that death was not entirely unexpected, although this fact had not been made public.

Mr. Mansfield's condition had been reported as being excellent. It was stated that he stood the journey well from Saranac Lake and that he was up and around the house here until three days ago. Then a turn for the worse set in and Mr. Mansfield was confined to his room. On Thursday Dr. McClellan, of Plattsburg, was summoned. Dr. Allen said Friday that he had feared the worst for several days.

During the great actor's last moments he was lying in a condition of coma and did not recognize loved ones at his bedside. There were present at the time of his death his wife, his brother, Felix, his young son, Gibbs, and the physicians and nurses.

Sketch of His Life.

Richard Mansfield was born on the little island of Heligoland on May 24, 1857. His mother was Mme. Mansfield Rudersdorf, a famous prima donna, and it was from her that Mansfield inherited his love for the arts. The actor studied at several schools on the continent, and went to England to study art in the South Kensington Museum, London.

The young artist made a precarious living painting pictures, and many times his only meal in these early days in London, was a hot potato bought from a street peddler.

Mansfield turned his whole artistic bent to the study of the stage and waited for an opportunity to show what he could do.

Several years were spent playing small parts in towns of the English provinces, and then Mansfield came to this country, where his first appearance was made in Lee Manteaux Noiris at the Standard theater. Later he played the part of Nick Vedder in "Rip Van Winkle."

Mansfield's genius had so far failed to make itself manifest to his associates, but in 1883 his opportunity came when A. M. Palmer put on the "Parisian Romance." In this play his success began.

MAY SURVIVE WOUNDS.

Though Shot Through Upper Part of Brain, Man May Live.

Columbus, Ga., Aug. 31—Although shot squarely through the brain, it now looks as if W. J. Vaughn, who was wounded last week by Marshal W. H. Spier, of Phenix City, will recover from his injury.

When he was carried to the hospital the attending physician said that the wound was mortal, and his death was expected in a few hours.

The next day Vaughn began to improve, however, and it appears as it he will get well.

The bullet entered the forehead and ranged through the upper part of the brain, coming out at the back of the head. The hole made by the big bullet at the front of the head was so large that a finger could be pushed into it.

Relatives Seeking Lost Man.

New York, Aug. 31.—Seward Heidelbach, wealthy Cincinnati manufacturer of ladies' wear, and cousin of Alfred Heidelbach, of Heidelbach, Ickelheimer & Co., bankers of New York and Cincinnati, is missing, and his friends and relatives fear that his mind is seriously affected. Mr Heidelbach disappeared shortly after noon on Monday, after taking luncheon with his brother, Albert Heidelbach, formerly of the big white goods wholesale firm of Weil & Heidelbach. They were in the Cafe Savarin in the Equitable Life building, on Broadway, when Seward was lost. It is not believed he committed suicide.

BODY IDENTIFIED.

Not Believed Consul for the Netherlands Suicided.

St. Louis, Aug. 31.—The dead body of a man 76 years of age taken from the river Wednesday was identified at the morgue by Albert R. Haagama, as that of his father, Broer B. Haagama, consul in St. Louis for the Netherlands.

The son declared he did not believe his father had committed suicide, but expressed the belief that death was accidental.

Consul Haagama disappeared mysteriously last month. He came to St. Louis in 1855 and became a leader in Holland-American circles in this city. Finally he was appointed consul representing his country, and his commission bears the signature of President Lincoln in ratification of his appointment.

KING EDWARD SHOCKED.

Leaves Theater as Protest Against Scandalous Performance.

Mari Enbai, Aug. 31.—King Edward has administered a rebuke to the singing of indelicate songs in places of public amusement and his action, which was taken publicly, has created intense excitement in Mari Enbad. His majesty entered a cafe chantant Thursday night and after listening to one or two items on the program he walked out as a protest against the scandalous nature of the performance. His majesty was followed by the Duke of Trek and other members of his suite and all the Americans and Englishmen present.

"This is horrible; appalling," said the king to a member of his entourage, and the accuracy of his discipline of the performance is admitted on every side.

Convicts Saw to Liberty.

Joliet, Ill., Aug. 31.—Edward Quinn and Harry Hannon, two convicts at the state penitentiary, made a sensational escape from prison and are still at large. Quinn, said to be one of the most expert safe blowers in the country, was serving a twenty-year sentence for burglary. He had eight years to serve. Hannon was in for burglary under an indeterminate sentence. The men were nurses in the hospital and sawed through the bars of a hospital window, dropped into the prison yard, and with an iron hook and rope made from sheets, scaled the walls.

Will on Back of a Check.

Washington, Pa., Aug. 31.—The shortest will ever filed for record in Washington county has just been probated. It was that of Hugh Hallam, who died a few days ago. The instrument contained just twenty-two words, and was written on the back of a blank check. It was dated 1899, and had been neatly folded and placed in Mr. Hallam's vest pocket. It was not found until last week. It contained a single sentence, which conveyed all his property to his wife.

Aeronaut's Narrow Escape.

Toronto, Ont., Aug. 31.—The Knab Enshue airship, piloted by Gail Robinson, took flight from the exhibition grounds Thursday during a gale. It sailed for half a mile in the direction of the [illegible] tower, when something gave way and the airship landed on the cupalo of a schoolhouse, leaving its pilot in a perilous position. Robinson and the airship were rescued with the help of ropes.

Louisville, Ky., Aug. 31—The loss on the Courier-Journal plant, which was gutted by fire shortly after midnight Thursday night, is estimated to be about $200,000. The machinery, while damaged to some extent by water, can be put in shape and it was stated by Mr. Bruce Haldeman, the president of the Courier-Journal company, Friday morning, that there would be no interruption to the business, the other papers of the city having offered the Courier-Journal the use of their plants until arrangements can be made for the paper to resume operations in its own place of business.

The principal damage was done by water, the roof and the top story being the chief sufferers by fire.

The Courier-Journal and the Times were issued from the Herald plant on Friday.

The loss is estimated to be $100,000.

Cambridge, Mass., Aug. 31.—Fire in Cantabriga apartments here early Friday morning endangered the lives of the members of twenty-three families, including almost one hundred people, and caused a property loss estimated at $75,000. AUTO SOMERSAULTED.

Party of Five Injured in an Accident Near Dayton, Ohio.

Lafayette, Ind., Aug. 31.—Five persons were injured in an automobile accident at Dayton, eight miles east of here, late Thursday.

A large touring car containing Mr. and Mrs. Don Hawkins and Mr. and Mrs. Osterdorf and the chauffeur, all of Indianapolis, skidded across a bridge and turned a complete somersault, landing bottom side upon soft gravel at the foot of an embankment.

Hawkins and Mrs. Osterdorf were pinned under the car. They remained there 25 minutes suffering excruciating pain. Hawkins' legs were crushed below the knees and he was severely scalded by escaping steam.

Mrs. Osterdorf had several scalp wounds. The others in the party were severely bruised.

The party was on its way from Chicago to Indianapolis when the accident occurred. Hawkins and Osterdorf are partners in the banking business at Indianapolis.

"I am informed by a publisher," says a Texas author, "that it will take the value of six bales of cotton to place my poems on the market, and after due consideration I have decided to hold my cotton and let the poems go to Oblivion!"

A Welcome to Happiness.

What Brought Grief to Him.

Writing to his son, who was in trouble in Texas, the old man said:

"You must take courage, Bill!"

To which Bill replied:

"I took courage, and everything else in sight. That's why I'm in jail!"

A Georgia Dante.

A Georgia singer who recently wrote a rhymed "Interview With the Devil," gives us the following reverse experience, in flowing numbers:

"I dreamed I went to glory,
Where all is bright and fair;
I looked for Parson Thomas,
But they didn't know him there!

"I asked for Deacon Williams
Who used to sing an' pray;
The angel smiled, and answered:
'He went the other way!'

"When Colonel Jinkins left us
They writ above his rest:
'Gone hence, to do some sleepin'
On Father Abraham's breast!'

"But there I did not find him:
I heard this word from all:
That Abraham got tired
And let the Colonel fall!

"But the Colonel's wife, Maria,
Was just inside the gate,
Tellin' of an angel
To put her crown on straight!

"So awful sad an' lonesome
Was every golden road,
I felt too strange to stay there
An' meet no friend I knowed!"

Some Georgia Texts.

If the road to heaven was a railroad, the devil would apply for a job as conductor.

Many of the lost sheep of the fold get lost out of pure devilment.

The fact that the Lord takes the good away puts a premium on gray-headed sinners.

Happiness don't always fly high. Sometimes you can find it in the dust of the roadside.

We read of an author who received $1,000 for a poem of fifty lines, and they say that he can write three poems a day!

Needed Sympathy.

Hearing that a Western man had been arrested, charged with having six wives, Brother Dickey said: "'Stidder 'restin' of him dey orter took him by de han' an' give him their sympathy!"

Alcohol not needed

Ayer's Sarsaparilla is not a strong drink. As now made, there is not a drop of alcohol in it. It is a non-alcoholic tonic and alterative. Ask your own doctor about your taking this medicine for thin, impure blood. Follow his advice every time. He knows. Trust him.

STOP WOMAN AND CONSIDER

First, that almost every operation in our hospitals, performed upon women, becomes necessary because of neglect of such symptoms as Backache, Irregularities, Displacements, Pain in the Side, Dragging Sensations, Dizziness and Sleeplessness.

Second, that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, has cured more cases of female ills than any other one medicine known. It regulates, strengthens and restores women's health and is invaluable in preparing women for child-birth and during the period of Change of Life.

Third, the great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time being published by special permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Lydia E. Pinkham's Vegetable Compound

For more than 30 years has been curing Female Complaints, such as Dragging Sensations, Weak Back, Falling and Displacements, Inflammation and Ulceration, and Organic Diseases, and it dissolves and expels Tumors at an early stage.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass. for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law, Lydia E. Pinkham in advising. Thus she is especially well qualified to guide sick women back to health. Write today, don't wait until too late.

A MUSICAL RECITAL.

Signor Carlo Mora Will Appear at Methodist Church Wednesday.

The people of Gainesville will have the opportunity of a delightful musical treat in the piano recital to be given next Wednesday evening at the Methodist church by Signor Carlo Mora, director of music in the Methodist College at Sutherland, Fla.

Dr. J. P. Hilburn, president of the college, and Professor Mora, are visiting the prominent places in the State in the interest of the college. Their purpose is to bring the work of this institution prominently before the people of the State. Signor Mora, is a graduate of the great Milan Conservatory of Music, and is a master whose superior as a musician would be hard to find anywhere.

This is what The Tampa Tribune says of the recital given there last April: "Signor Carlo Mora, director of the musical department of the College, appeared in his first recital Saturday evening. To say that he captivated his audience is putting it mildly. A large assembly gathered and were charmed and thrilled through and through by the masterful playing of Prof. Mora."

No admission will be charged to this recital. All are cordially invited to come and enjoy it.

South Gainesville Improvements.

South Gainesville is improving with other sections of the city, as the good people who own property and reside in that section are determined to keep up with the times.

Among other improvements contemplated in South Gainesville, and upon which work will begin at once, is a five-room cottage which will be erected by Mrs. H. H. McCreary and an addition of three rooms and a hall to the residence of R. B. Peeler.

August Wenske has the contract for both jobs, and will proceed at once.

Stogies High in Alaska.

Henry Quong, the young Chinaman who was here in the capacity of interpreter at the time C. W. Chase had so many of the Celestials employed, writes a friend in this city from Funda Bay, Alaska, where he is now stopping.

The message was an interesting one, and among other things Quong took occasion to state that smoking came rather expensive in Alaska, an ordinary "stogie" selling for twenty-five to fifty cents.

Renovating Store.

On account of remodeling our store we have decided to clear out all of our spring and summer clothing before the arrival of our winter stock. Look for our prices in Tuesday morning's Sun. Lowest prices ever offered in the city of Gainesville. This sale will be spot cash to everyone.

JUDGE STRINGFELLOW'S DEATH.

Account of This Sad Event Taken from The Fernandina Record.

The Sun of a recent issue contained [illegible] on the death of Judge [illegible], which occurred [illegible] but was [illegible] the particulars [illegible] the following reference to the sad event, which appeared in the current issue of The Fernandina Record, will prove of interest to friends of the family in this section:

"Judge R. H. Stringfellow died in this city Saturday night at 7 o'clock, of locomotor ataxy, at the home of his daughter, Mrs. J. O. LaFontisee.

"Judge Stringfellow came here with his wife several weeks ago, from his home at Hawthorn, hoping that the change of climate would prove beneficial. For the first few days he appeared to revive, and relatives had hopes for his ultimate recovery.

"During the last week that he was here there was, however, no hopes entertained. The body was prepared for burial by Mrs. Rogers, and was carried to Hawthorn, where the interment took place Sunday afternoon.

"Judge Stringfellow was a native of Chester county, S. C., but had been residing in this State ever since the Civil war. He was a prominent citizen of Alachua county, and a prominent Odd Fellow and Mason. The local lodge of Masons of Hawthorn had charge of the funeral.

"The deceased leaves a widow and three children, Mrs. M. W. Hogan of Waldo, Mrs. J. O. LaFontisee of this city, and Miss Ella Stringfellow of Hawthorn.

"Judge Stringfellow was a Confederate veteran, having been the youngest member of Captain Wylie's company of Chester, S. C."

WILL MAKE BIG IMPROVEMENTS.

The Interior of the Dutton Bank Will Be Greatly Improved.

The management of the Dutton Bank, with a desire to keep up with the march of progress along other lines, has decided to make extensive improvements in the building owned and occupied by that institution, and in a few weeks the work will begin.

It is the intention of the bank to fit the interior of the place in an absolutely up-to-date manner, including every modern bank fixture.

The exterior of the building will also be changed to some extent. The stairway leading to the offices on the second floor will be transferred to the outside of the building, leading from the street on the east side, which will afford more room on the interior. In all, the improvements will make a great change, and President Thomas assures the public that there will be nothing finer in the State when the work is completed.

LETTER TO J. H. ALDERMAN,

Gainesville, Fla.

Dear Sir: They're glad they found out Devoe.

Corpus Christi, Texas, is right on the Gulf and one of the hardest climates for paint; hot sun, salt air, and strong winds.

The Sidbury Building, painted Devoe in 1899, is a shining example of perfect paint snow-white after 7 years, as if painted last week.

We should like every property-owner from Maine to Mexico to see that white, white, white.

Experience teaches who wants to learn as well as who waits to be kicked. Yours truly,

COUNTY SCHOOL FINANCES.

The annual statement of the financial condition of the Alachua county public school fund, which is published in today's Sun, is a most excellent showing and reflects great credit upon Dr. J. L. Kelley, the efficient superintendent, and the school board.

When Dr. Kelley was a candidate for superintendent he promised, if elected, to exercise every effort toward reducing the county school debt, which then amounted to about $78,000. At the close of business for the fiscal year ending June 30, 1905, the net indebtedness of the school board amounted to $44,703.05, whereas the statement for the year ending June 30, 1907, shows a net indebtedness of only $20,507.08. Since the latter date school warrants have been issued amounting to $3,535.45, but cash has been converted into the fund during the same period sufficient to reduce the net debt at the present date to $18,365.29. Since Dr. Kelley's induction into office the school debt has been thus reduced notwithstanding the fact that the school board has spent during the same period $17,000 for school buildings, and made two exhibits at the State fair which cost about $1,000, besides being compelled to pay over $8,000 on account of interest and discount. Expenses will be somewhat heavier the coming year, but as the board will have to pay very little for interest from now on, the people will be pleased to learn that the prospects are that the financial statement for the year ending June 30, 1908, will show the county school debt entirely liquidated.

The public has just cause to congratulate Dr. Kelley and the school board upon the excellent condition of the school finances. Hon R. B. Weeks, chairman of the board, has been an able co-worker with Superintendent Kelley during the past two and a half years. The other members of the board, Messrs. Brooker and Futch, only assumed office last January, but they are proving efficient and careful public servants.

The people like a public official who does things, and as county superintendent Dr. Kelley has done things in a most admirable manner.

Walter Wellman, the arctic explorer who is going to try reaching the North Pole in an airship, is about ready to start from Spitsbergen from the exact spot where the fearless but foolhardy Andree and his two companions started almost ten years ago. In the time that has intervened aerial navigation has made great strides. Andree ascended in an ordinary balloon, trusting to drift over the Pole, and was never heard of again. Mr. Wellman has a well equipped airship that he can drive and steer, and provisions for ten months. The chances are all in favor of his at least coming back to tell why he did not go all the way. Possibly he will make the whole journey, and if so the crown of arctic achievement will belong to the United States for all time. It is a hazardous venture into the unknown by an untried route. He naturally has the good wishes of all people who love a game man. A month's time ought to record either his success or his failure. Meantime the best that can be done is to wish him well.

A report from the Northwest declares that an Indian there killed himself because his mother-in-law would not come and live with him. This sounds like a case of nature faking that should make Dr. Long go out of business.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

GOLD ON FARMS.

The Southern Farm Magazine of Baltimore, for September, says there is much actual gold still to be discovered in the South, but the cotton grown annually by that section is worth far more than all the gold and silver produced in the world in the same time. Between 1901 and 1906, for instance, the total value of the world's gold and silver output was $2,606,686,400, and the total value of the cotton crop of the South, including seed, in the same period was $3,669,000,000, a difference in favor of cotton in the six years of $1,062,313,600. The total value of the corn, wheat and oats raised in the South in the ten years from 1897 to 1906 was more than $3,690,000,000. These figures indicate that the men who are raising the cotton to clothe and the corn to feed the gold and silver miners have the advantage over the latter. Plowing for gold is still much more profitable than digging for gold.

Dispatches from Tokio announce that the government there has just received the report of the commission sent to investigate the killing of the Japanese seal poachers on the island of St. Paul about a year ago, that the report is an entire exculpation of the poachers who were more sinned against than sinning, and—most remarkable of all—that the Japanese Government has made representation to the State Department looking to reparation. This is one of the most remarkable announcements that has ever emanated from Tokio, a place whence remarkable announcements are not uncommon. The truth of the matter is that the first secretary of the Japanese Embassy in Washington was sent to St. Paul immediately after the Japanese seal poachers were killed there, and he reported to his government that the Japanese were wholly in the wrong and that if they had not been ashore stealing sealskins they would never have been killed. At least that is what he told our Secretary of State that he reported. His report was never made public by the Japanese Government. Since then the Japanese public has been looking for some sort of a government announcement on the subject, and now they have it. The dispatch says that the Japanese people are awaiting the outcome with intense interest. What outcome their government can expect is a little hard to see.

It was reported that Judge Landis had completely broken down after the strain of imposing that $29,000,000 fine on the Standard Oil Company, but the latest reports from his fishing skiff indicate that the fine did not worry him more than it did John D.

Said that Phillips Took $9,000 of His Employers' Funds.

New York, Aug. 31—Charged with the larceny of $9,000 of his employers' funds, Edward Phillips, a clerk for the stock brokerage firm of G. T. Slocomb & Co., was arrested Thursday.

The police asserted that Phillips confessed that he embezzled $9,000, but most of the firm are investigating their books, fearing that their loss may exceed that amount.

Phillips, the police say, told a number of the firm that he began by losing money on the horses and wound up by speculating in bucket shops. It is charged that he has been using the firm's funds for more than a year.

He was carried, with all haste, to the hospital, but he succumbed a short time after to his injuries.

S.S.S. CURES SKIN DISEASES

No skin disease can exist without an underlying cause, and in most instances that cause is either a humor in the blood or an excess of fiery acids in this vital fluid. These humors and acids get into the blood, generally because of an inactive and sluggish condition of those members whose duty it is to collect and carry off the waste and refuse of the body. This unhealthy matter is left in the system to sour and ferment, and soon the circulation becomes charged with the acid poison. The blood, in its effort to rid itself of this foreign matter, begins to throw off the humors and acids through the pores and glands of the skin. These coming in contact with the delicate tissues and fibers with which the skin is so abundantly supplied produces irritation and inflammation on the surface, and Eczema, Acne, Tetter, Psoriasis, Salt Rheum, or some other troublesome and disfiguring skin disease is the result. External applications, while they soothe the itching, and are beneficial in keeping the skin clean, can never cure skin affections, because they do not reach the blood where the real trouble is located. A thorough cleansing of the blood is the only permanent cure for skin diseases. S. S. S., the greatest of all blood purifiers, is the best treatment. It cures by neutralizing the acids and removing the humors from the circulation so that the skin, instead of being irritated and diseased by the exuding acrid matter, is nourished and soothed by a cooling, healthy stream of blood. S. S. S. goes down to the very bottom of the trouble, removes the foreign matter and thereby permanently cures every form of skin trouble. Do not expect to cure a blood disease with local applications alone, but begin the use of S. S. S., and when you have removed the cause the skin will be free from disease. Special book on Skin Diseases and any medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

BRIEF DISPATCHES.

The Norwegian steamer Arenta has been wrecked at Capicia, about 200 miles below Quebec. The Arenia was in ballast and was from Rio Janeiro bound for Matanco.

At Antwerp the lockout of the dock laborers was ended by the men voting to go back to work at the old scale of wages—$ per day.

Judge A. L. Williams, of Topeka, Kans., for many years general counsel for the Union Pacific and one of George Gould's personal lawyers, died at his summer home on Pike's Peak.

Michael Bizneh, aged 24 years, of West Middletown, Pa., was struck on the head by a bursting steam pipe and killed when he was at work at the Steubenville street electric railway plant.

Orders for thirty-six thousand tons of coal to be distributed along the route for the battleships from the Atlantic to the Pacific coast were reported to have been given to four New York coal firms by the United States government.

It will cost $140,000,000 to keep the City of New York going during the year 1908, according to estimates submitted to the board of estimate and apportionment by all department officials. This is an increase of $10,000,000 over the estimate made for the current year.

If its a Reputation

You are after, White's Cream Vermifuge has a world wide reputation as the best of all worm destroyers, and for its tonic influence on weak and unthrifty children. It improves their digestion and assimilation of their food, strengthens their nervous system and restores them to health and vigor natural to a child. If you want a healthy, happy child get a bottle of White's Cream Vermifuge. Sold by W. M. Johnson.

Died of His Injuries.

Cincinnati, O., Aug. 31.—R. F. Singleton, a former magistrate of Covington, Ky, who was found terribly beaten in a Richmond street house in this city last Wednesday, died at the city hospital Thursday night. Singleton was enticed to the house by a woman known to the police as Mrs. Walter West. Arriving there he was robbed and set upon by two men, one of whom, the police believe, to be the husband of Mrs. West. No trace of the men or woman have been discovered.

Comer Favors Unwritten Law.

Montgomery, Ala., Aug. 31—Governor Comer again demonstrated his belief in the unwritten law when he pardoned J. D. Williams, a white man, of Bibb county, who killed a man who had invaded his home. The governor said: "This murder was committed in defense of his wife and his home. It is questionable if justice did not miscarry in his conviction."

General Robert E. Lee

Was the greatest general the world has ever known. Ballard's Snow Liniment is the greatest Liniment. Quickly cures all pains. It is within the reach of all. T. H. Pointer, Hempstead, Texas, writes: "This is to certify that Ballard's Snow Liniment has been used in my household for years and has been found to be an excellent Liniment for Rheumatic pains. I am never without it." Sold by W. M. Johnson.

ABUNDANT HARVESTS.

Manufacturers' Record Reports a Very Bright Outlook for Farmers.

Baltimore, Aug. 31.—In this week's issue the Manufacturers' Record says: "Notwithstanding the fears in the early summer that the long, cold spring would bring disaster to the crops, it is now assured that nature once more will bless this country with abundant harvests.

It is true that the phenomenal yield of corn and wheat last year may not be quite equaled, but it is also true that the output will exceed the average of recent years, and at the same time the increase in the value of farm products is likely to far more than offset the decline in the aggregate yield. There may be a decrease in wheat of possibly 75,000,000 bushels, but with the price more than 20 cents a bushel above the corresponding time last year there ought to be a net increase of $75,000,000 to $100,000,000 in the value of the wheat over that of 1906.

With an increase in the price of corn and cotton the falling off in these crops will likewise be doubtless offset by their higher values. Thus the farmers of the country are once more blessed with a vast income—an income so great as compared wtih five or six years ago that it is difficult to comprehend the magnitude of the gain."

PLOTTERS DOOMED TO DEATH.

Others Sentenced to Prison for Conspiracy Against Czar.

St. Petersburg, Aug. 31.—The courtmartial which has been trying the eighteen persons accused of plotting against the emperor Nicholas and the government last May has found three of them, Boris Nihitenko, Alixis Purkin and Naumoff, guilty of organizing a plot and sentenced them to death by hanging.

Four others were found guilty of organizing a plot to overthrow the existing form of government. Three of these were sentenced to eight years' imprisonment and one to four years' penal servitude.

Five of the prisoners were convicted of "naving supported a conspiracy" and were condemned to imprisonment and the loss of all civil rights, while six persons, including M. Freodosieff, a lawyer and his wife, were acquitted.

Rheumatism.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, Prop. Sullivan House, El Reno, O. T., writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c and $1.00. Sold by W. M. Johnson.

9-Hour Day for Machinists.

Chicago, Aug. 31.—Machinists and other workmen in the railroad shops of the west are rejoicing over the news that the 9-hour day, for which the men have been fighting for years, is to be tried on several of the larger railroad systems. The change will affect about 2,200 machinists and ultimately, if adopted by all the railroads between 15,000 and 20,000 employes in the shops.

Kaiser's Only Daughter to Wed.

London, Aug. 31.—Emperor William, it is understood, will arrange a marriage between his only daughter, Princess Victoria, and his cousin, Prince Leopold, son of the Princess Henry of Battenberg, when he visits his uncle, King Edward, this fall. Princess Victoria is Empefor William's youngest child. She is 15 years old. Her intended husband, Prince Leopold, is 18. He is a brother to the queen of Spain.

Lame Back.

This is an ailment for which Chamberlain's Pain Balm has proved especially valuable. In almost every instance it affords prompt and permanent relief. Mr. Luke LaGrange of Orange, Mich., says of it: "After using a plaster and other remedies for three weeks for a bad lame back, I purchased a bottle of Chamberlain's Pain Balm, and two applications effected a cure." For sale by all druggists.

Chamberlain's Colic, Cholera and Diarrhoea Remedy. Never fails. Buy it now. It may save life.

LINEN COLLAR SAVED MAN.

Run Down by Train It Caught on a Bolt, Saving His Life.

Wilkesbarre, Pa., Aug. 31.—A linen collar saved the neck of Edward Connery at Glen Summit Tuesday. He was doing some work along the railroad track and was run down by a Lehigh Valley locomotive. He fell directly before the front wheels but a projecting bolt entered his collar and held his head a few inches above the rail, while the locomotive dragged him 300 feet.

Connerly was badly choked, and fainted when released by the train crew, but speedily recovered.

Aside from a few bruises he was unhurt.

Count Witte Accepts Directorship.

London, Aug. 31.—Count Witte, once the most powerful man in Russia, next to the emperor, has accepted the directorship of the Bank of Russia for exterior commerce, according to advices received here from St. Petersburg. This act, it is stated, marks the final severance of the ex-premier from the official life of his country.

Shot by a Negro, He Dies.

Bluefield, W. Va., Aug. 31.—Conductor Sidney Bolton, shot by a negro at Wilmore, died at the Welch hospital as the result of his wounds. The shooting followed when Conductor Bolton ordered the negro off the train on which he was stealing a ride. The negro was also shot and is in a serious condition.
